

PUBLIC NOTICE

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER **MONROE CITY PWS Failure to Meet COMPL SOC METHOD 507 Monitoring Requirements for Drinking Water**

Este informe contiene información muy importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During April 01, 2022 to June 30, 2022, we did not monitor or test as required and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the monitoring required by the system and the monitoring completed by the system.

Required Monitoring	Required Monitoring Frequency	Number of samples taken	When all samples should have been taken
COMPL SOC METHOD 507	1 per QT	Zero	June 30, 2022

What happened? What is being done? (Describe corrective action.)

All required sampling from DNR is completed and returned within 1 week. We are now keeping a list of all sampling completed, who collected and when it was dropped off at the courier, this should alleviate this issue in the future

For more information, please contact water system staff indicated below:

George Hausdorf at 573-465-4701 or PO Box 67, Monroe City, MO 63456
(name of water system contact) (phone number) (mailing address)

Additionally you may contact the Missouri Department of Natural Resources Northeast Regional Office at 660-385-8000 or Public Drinking Water Branch at 573-526-6925.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
